FOR IMMEDIATE RELEASE:

**RE/MAX REALTY AFFILIATES PLACES IN TOP LISTING OF
SWANEPOEL MEGA 1000 BROKERAGE LIST**

Reno, Nev. (May 21, 2018) – RE/MAX Realty Affiliates (RRA) has earned the 323 spot out of 1,000 in the Swanepoel Mega 1000 list for 2017. Swanepoel Mega 1000 named the top 1,000 brokerages for the residential real estate brokerage industry in the United States.

According to the Mega 1000 report, RRA's 2017 Sales Volume was \$907.7 million, with 2,547 transaction sides and 118 agents. The Mega 1000 rankings are sorted by sales volume as of December 31, 2017, because it is the core metric used to calculate agent commission, franchise fees and company revenue.

"It's a great achievement for RRA to rank nationally in this esteemed list representing the residential real estate brokerage industry," said Amy Keith Lessinger, broker/owner of RE/MAX Realty Affiliates. "This type of recognition validates the hard work and success of our elite agents who go above and beyond as professionals. I couldn't be more proud of their successes."

The Mega 1000 list is an annual analysis of brokerages, franchisors, and real estate holding companies which is completed by the company T3 Sixty. The list was generated through a rigorous process which included gathering and analyzing data. Swanepoel received information from 2,500 of the largest brokerages, franchisors and holding companies in the U.S.

"We believe the result is the most comprehensive and accurate list ever published," said the Swanepoel Mega 1000 editors.

The researchers were determined to analyze over 9,000 datasets and review all real estate public company 10K statements. There were also hundreds of conferences calls held with real estate executives to verify data. The Mega 1000 list took approximately 1,100 hours to gather, analyze and review the data provided.

In addition to the introduction of the Swanepoel Mega 1000 list, T3 Sixty has published the Swanepoel Trends Report annually for the past 13 years and the Swanepoel Power 200 list for the past six years.
