FOR IMMEDIATE RELEASE:

RE/MAX Realty Affiliates Named as a Top Brokerage by RISMedia

Reno, Nev. (April 9, 2018) — RE/MAX Realty Affiliates (RRA), one of Northern Nevada’s most successful real estate companies, announced its ranking among the 500 most productive brokerages in the United States. According to the prestigious RISMedia’s 30th Annual Power Broker Report, RRA ranked number 300 among the over 8,370 real estate firms across the United States.

“This prestigious recognition is a testament to the amazing accomplishments of our dedicated and motivated elite agents,” said Amy Lessinger, broker/owner of the RRA Reno office. “RRA has built a culture focused on agent productivity, education and professionalism.”

In 2017, the RRA offices in Reno, Gardnerville and Carson City reported nearly one billion dollars in sales volume, representing 2,547 closed real estate transactions. This year’s Power Broker Report is based on responses to RISMedia’s 2018 Power Broker Survey, distributed in January. To view the full report, visit <http://rismedia.com/power-broker-survey-results-2018/>

“The firms represented are the nation’s most elite brokerage firms serving literally millions of consumers with their real estate needs,” said RISMedia president and CEO. He added that the Power Broker Report honors the incredible business feats of remarkable real estate leaders – and broker firms – who continue to shape the industry.

Other highlights of the 2018 Power Broker Report and Survey were challenges with the lack of housing supply and the majority of Power Brokers believe that the housing market is growing.
